PROFESSIONAL SUMMARY

Detail-oriented Software Engineering student skilled in full-stack web development using HTML, CSS, JavaScript, Tailwind CSS, Django, and Python. Strong in Data Structures, OOP, SQL, and problem-solving, with experience building scalable applications and using Git/GitHub for version control. Seeking an internship to apply technical skills in real-world software development.

SKILLS

- C++
 - Python
 - Django (Python)
 - SQL Database
 - Object-Oriented Programming (OOP)
 - Data Structures & Algorithms (DSA)
 - Github/ Version Control
 - HTML,CSS,JavaScript
 - Tailwind CSS
 - Software Design & Analysis
-

EDUCATION

Bachelors in Software Engineering

University of Engineering & Technology,Lahore | **2024-2028**

Intermediate in Computer Science

Superior College,Multan Road, Lahore | **2022-2024**

PROJECTS

Online Voting system | C++ OOP

- Developed a console-based Online Voting System using C++
- Implemented user authentication, secure voting, candidate management, and automated vote counting

SwiftX Logistics Management System | C++ DSA

- Developed a logistics system using DSA
- Implemented routing, sorting, and delivery tracking
- Improved data handling for efficient logistics management

Bank Management system | HTML, CSS, JavaScript, Python

- Developed a web-based Bank Management System using HTML, CSS, JavaScript, Tailwind CSS, and Django.
- Integrated backend with SQLite database for secure and persistent data storage

ChatApplication (Real-TimeMessaging)| Python

- Developed a multi-user chat system using Python and socket programming
- Implemented client-server architecture with TCP/IP communication
- Managed messaging, connections, and reliable data transmission

AIAssistant (Python)

- Created an AI assistant for handling user commands and automation tasks
- Implemented voice/text-based interaction using Python
- Built modular system for scalable functionality

Grocery Shop Management system | C++ OOP

- Developed a Grocery Shop Management System using C++
- Implemented admin/customer modules, product management, billing, and file handling
